Tech Skills

Things I do for profit, the things I do for fun.

Main Skills	In one sentence.
Web Programming	I've been doing this since '98 and love it.
PHP	Picked up 2002; love rekindled with version 7.
Apache	Since 2002; it's reliable and plays well with others.
SQL	Started with Oracle in '99, MySQL in later years.
Nginx	Wonderful, simple reverse proxy. Favourite server.
Linux	Ubuntu is my server; Mint is my local. I like Tails too.
MySQL	Since 2002; it just fine by me.
SEO	White, grey and black hat. Not a passion anymore.
Paid Search	Worked on \$12million + campaigns, not a passion anymore.
Adwords	The reason asylon.org exists.
PhotoShop	I have real license, from 1999. Defacto awesomeness.
Sketchbook	Pure joy. Created beer labels with this.
For Fun	In one sentence.
Oracle	Was certified Oracle Developer after grad school.
Javascript	Mucking around for years, not my main thing.
Perl	I oddly like Perl. Used for internal scripts.
JSON	Nice alternative to fetch data.
CSS	Mucking around for years, love it. Skeleton.css is cool.
Wordpress	Love to hate it. Its bloatware for the web.
Lua	Bits and pieces over the years. Not my gig, but cool.
Virtualmin	Why didn't I get on to this sooner?
Swift	Fun language, just have to find a project for it!
Drupal	Note used since 2010. It was fun then.
Textpattern	Better than wordpress.
GrapheneOS	An alternative to the recalcitrant Android. It's nice.
Leadership	In one sentence
Project Management	Managed successful inhouse and overseas projects.
Human Resources	Hired awesome developers who became business partners.
Online Marketing	Massive (in scale & cost) and profitable campaigns.
